COMMUNITY 'POLIO' DANCE SET JAN. 30th

The MASON LINE

by Chan Mason

They tell this story about Rev. John Chandler and his Trinity Presbyterian Church.

It concerns his early days in the community when he was trying to get an appropriation of $200 for a new chandelier. One old fellow on the council refused his consent.

"Just why," asked the Reverend, "do you persist in your disapproval?"

"For two reasons," was the old codger's retort. "First, $200 is too much money, and, second, I don't believe there's anyone in our whole congregation that can play a chandelier."

Back in the halcyon days when the Journal was running full tilt, a group of the reporters used to meet at one of the nearby bistros and talk over the events of the day. Someone had discovered an unfortunate innocent named Upstill in the telephone directory and when the group got real mellow someone would inevitably walk over to the telephone and call the number listed under the person's name and inquire sweetly, in the middle of the night "Are you Upstill?"

Another trick was to call one of the matrons who had made the society page of the Journal within the past week and in the guise of a charitable manufacturer offer to present a fairly large amount of money to her favored charity in her name if she would endorse a product of national acclaim.

The matron, usually, would gush and acquiesce, thinking of the edge she would have on all of the women in her group with a sizable gift.

Eventually the woman would ask "What do you want me to say?"

The reporter would then floor the socialite with this request:

"I want you to say," he would urge, "I have always used Parker's Products to overcome the mass of pimples which cover my body."

Inevitably the banging of the phone being slammed shut would follow.

Early morning risers last week were greeted with an unusual sight. On the railroad tracks in the middle of town waddled a duck intent on staying between the rails and headed north as though it knew where it was going. A few feet behind, looking as thought he didn't know where he might be going next, and making unusual sounds which might have been duck language, was Tony Sonka.

It is only in the interest of complete reporting that we relate that a woman, two cocker spaniels and about five kids joined in the parade with the duck maintaining a good lead all the way as the duck made the turn on North Avenue the parade was well outdistanced. If any of our readers is missing one black and white duck, it was seen headed north about 9 a.m. last Friday.

Steve Westover, who operates the lumber firm on North Avenue, was stepping out of the office enroute to Pal's for a morning touch of grapefruit juice when the duck whizzed by. He did an about-face and returned to his office to cogitate.

"Unerving," he called it. "Could drive a man to drink."

Bob Shrader, representative of the Big Ace Markets, told a weekly luncheon group, the Lemon Grove Men's Club, of an ambitious plan his firm's president, Jim Banister, has for the opening of Big Ace Market in March.

Said Shrader, "There will be approximately 4,000 invitations sent out during the week before the opening. Guides will conduct tours in groups of 50 on a staggered program.

"Every one of the invited guests will receive a gift," Shrader said.

"Gifts," he revealed "will consist of merchandise ranging from a pound of coffee to a frying chicken."

"There will be no merchandise sold during the preview days," he said.

Complaint of one of the principals in a fracas involving a couple of our business people is taking an unexpected turn.

One of the complainants reported paper excelsior strewn from a second floor hallway down outside steps to a pile of trash in the back of the building in such a manner that a flipped cigarette or a quickly lit match could set off the whole building if the flames were to follow the paper to its destination.

If the investigation turns up what some fire authorities fear, it is possible that one of the individuals will never be able to purchase fire insurance again.

A flurry of excitement was caused among the business people last week when a large grader was seen scraping across the property between Sprouse-Reitz and the Salvation Army Shop.

The property is owned by Sonka Brothers but Harry Griffen has a long standing option on it.

Competition minded business men were put at ease when Griffen reported there was nothing to it.

"Just cleanin' it off," Griffen stated.

Accidents in Lemon Grove seem to come in bunches like bananas. About 10 days ago a woman, just released from the hospital, was involved in an accident at Broadway and Massachusetts, sending her back to the same hospital in a more serious condition than she was during her first stay.

Another woman, crossing Broadway at Olive St., was hit by an auto making a left turn on Broadway from Olive. Her condition has been reported as serious.

Up on Cypress Avenue one of the petitioners against the road widening was brushed into a ditch by a motorist last week. So upset was she that she immediately started another petition to have the first petition rescinded.

First petition threatened legal action if Joe Mack and company, County Road Superintendent, persisted in widening Cypress and installing sidewalks.

A well-known area automobile man is seeking a location in Lemon Grove for a salesroom for one of the nation's top popular automobiles.

Location will be east end of Broadway and it will mark the first time for one of the top four lines in Lemon Grove.

The San Dieguito Citizen, a newspaper covering the area along the coast above San Diego, reports that the board of directors of the Santa Fe Irrigation District offered 110 acres of land to the county for park purposes, last week.

The land, which lies on a direct line between Solano Beach and Rancho Santa Fe, was given to the county together with an allocation of one-fourth of an acre foot of water per acre at the domestic rate.

We are not attempting to nudge our irrigation district into doing the same thing but our attention is drawn, as though by magnetic force, to the property the district holds on the east side of Imperial Street halfway between the boundaries of Lemon Grove proper and San Diego City. This rolling land just beyond Monterey Heights could be made into an ideal park. This property was picked up by the irrigation district for tax delinquencies. In view of the fact that Lemon Grove has had its irrigation district tax valuation doubled in the past year and because Lemon Grove, together with the rest of the district, faces either a doubling of the water rates or another doubling of the irrigation district tax, it would not be beyond the realm of normal reasoning to hope for a similar show of generosity from the La Mesa-Spring Valley-Lemon Grove Irrigation District.

A good half dozen organizations in Lemon Grove would jump at the opportunity to make such an area into one of the county's finest parks.

Congressman James Utt sends us a little note about the ways and means committee, which he heads, working on a complete revision of revenue laws. It is the first revision of the Tax Code since 1887 and will correct the Code and correct inequities, he says. The final draft will be about 1,000 pages.

He says that in a moment of levity someone suggested an ultra-simple tax form composed of three parts: A. How much do you make? B. What did you have left? C. Send B. Congressman Utt says that recommendation has been filed.

A sadder thing,
I've never known.
A Christmas tree
That lingers on.
Other trees
Have come and gone,
But our tree always
Lingers on—and on!

Rev. Dan Apra to Address National Assembly

A Lemon Grove minister has been called to Cleveland, Ohio, to spark the organization which is slated to raise $6,200,000 for running agencies of the Congregational Church throughout the nation.

Rev. Dan Apra, pastor of the First Congregational Church, will speak to this huge organization Jan. 25. His subject will be "Feed My Sheep."

The Mission's Council of Congregational Churches of America, which is holding its mid-winter meeting for presenting the gigantic budget, will hear outstanding speakers throughout the nation among which Rev. Apra ranks high. In addition to his Jan. 25th speech he will talk to the Board of Home Missions on "Churches, Too, Need Re-Tooling."

Rev. Apra, who leaves Lemon Grove Thursday, Jan. 21, hopes to visit his sisters in Chicago. Following the national meeting he will return home, arriving in Lemon Grove approximately Jan. 30.

Only outstanding pastors of the Congregational denomination have been invited to participate in the annual event.

NEWCOMER GROWS KING-SIZE LEMON

While a great part of our nation shovels out from the "big snow," Mrs. Theodore Nachison has a problem with a "big lemon."

With a lemon measuring 13 inches in circumference Mrs. Nachison faces a dilemma. With lemons so plentiful in Lemon Grove, she is plagued with inability to get anyone to use it.

The lemon she holds in her hand, above, is larger than most Chicagoans have ever seen. Incidentally the family came to Lemon Grove in December from the Windy City.

The family, which resides at 6683 MacArthur Drive, recently bought a feed and supply business in El Cajon. With four children, David, 11, Daniel, 5, Joseph, 4, and Rebecca, 20 months, the lemon may not be as hard to dispose of as Mrs. Nachison thinks. There's always a king sized pitcher of lemonade or a big lemon pie, the kids point out.

"It's hard to believe that just a little more than a month ago we were living in Chicago where the temperature was freezing," Mrs. Nachison laughed. "I may send this lemon back to my acquaintances in the east but I doubt that they will believe it even then," she added with a twinkle in her dark eyes.

School Cost Committee to Meet With Grand Jury Member

First step in the more serious study of the Grand Jury's charges of over-spending in school districts will be taken Monday when the Citizen's Committee on School Costs meets with a member of the Grand Jury who helped develop the study resulting in the Grand Jury's charges.

The committee is already on record as to the necessity for more classrooms in Lemon Grove. Coming studies will eye the expenditure of funds raised by bond issues and other means.

The local committee is composed of Dr. Frank Gigliotti, chairman; John Landesco, Dr. David Wilhite, Robert Von Willer, Mrs. C. W. Brown and Max Goodwin.

Recommendation was made to the Elementary School Board of Trustees that a citizen's advisory committee be formed to help study school problems from a layman's point of view.

The trustees at their January meeting last week, committed themselves to such a committee.

Rules and regulations for implementing the decision will be handed down at the next board meeting, Harry Griffen, chairman of the board, stated.

The committee, at its first meeting, heard Byron Netzley, school superintendent, and Harry Griffen explain the need for the bond issue to be voted Feb. 16.

At the same meeting the committee dedicated itself to any endeavor which would result in more classrooms at the lower cost.

Part of the study will attempt to determine why a variance as great as $10 per square foot existed between schools in the district. A study will also be made to see what part architects play in high construction costs for schools.

It was indicated that as the study expands, two more members would be added to the committee. No indication was given as to whom these new members would be.

Mary Conlee Heads Revision Of Student Body Constitution Group

Under the leadership of president Mary Conlee, the Lemon Grove Junior High School student council has been revising the student body constitution during the past two weeks.

A representative committee recently was appointed, with members from each of the three grade groups of the school. These representatives, along with the regular student body officers, met each day with the faculty advisor and created the new constitution. This past week the completed project was submitted to the students for the necessary two-thirds approval.

Members of the constitution committee also included Harriet Collins, vice president; Sue McDonald, treasurer; Sandra Mayo, secretary; John Haupt, sixth grade representative; Karol Rife, seventh grade representative; and Connie Reid, eighth grade representative.

Results of the balloting on the revised constitution will be announced next week, according to Keith Dolan, faculty advisor.

Long-range aim of the polio big guns are on the second annual polio March of Dimes Dance scheduled for Saturday, Jan. 30 at Helix High Cafetorium.

This popular event, last year, played to a turn-away crowd and an entertainment program similar to last year's has been worked out, according to Tom Warburton, co-chairman of the local drive.

Al Cassel and his Musical Knights have been booked to play for dancers while various entertainement acts have been acquired to fill in the interludes. Meanwhile another block of dimes will be held Friday of this week, and on Saturday, two local events will vie for polio attention. The Monterey Heights Girl Scouts will hold a block of dimes in their community. Last year these little ladies took in approximately $100. On Saturday in downtown Lemon Grove another balloon sale will be held. This one will be under the aegis of the Lemon Grove Fire Department Auxiliary.

Waddington's Service Station at Sweetwater and Broadway will be turned over to the La Mesa 20-30 Club on Saturday, Jan. 30 and all of the profits resulting from that day's activities will be contributed directly to the Lemon Grove Fund.

Channing P. Mason, co-chairman with Warburton, said that the Telethon produced about $200 and that last week's block of dimes produced about $300. This with an additional $100 in pledges from about the community brings the total to $600. Last year Lemon Grove raised a fraction over $5,000 for the annual event.

The Grove March of Dimes last week was handled by Lemon Grove Girl Scouts while the Helix Band provided lively background music. Tickets to the Helix Dance are now available and Helix students are distributing them. Contributions for the tickets are $1.00 for adults and 60c for students. The 1954 drive will end with the Mother's March a few days after the dance. Details on this event will be announced later.

USC Coach Talks at Helix Banquet

Jess Hill, coach of USC, told a large gathering of football enthusiasts Monday night at Helix High School cafetorium how it feels to be walloped by Notre Dame.

It was the second annual Helix Football Award banquet and players of the varsity, junior varsity and cross country team were given awards.

Tom Warburton, vice-principal of Helix was master of ceremonies in the absence of Channing Mason who had illness in his family. Warburton did a commendable job on filling in on short notice.

Ken Maynard and Lester Julian presented the awards.

Helix P-TA Sets January Meeting

The Helix Parent Teacher Association will meet in the school cafeteria, Thursday, Jan. 28, at 7:30 p.m. Dr. D. C. Holmes, Associate Professor of Education at San Diego State College will discuss the topic, "Learn the Meaning of Their Growth." Mr. Daniel Lewis will present the Helix Pep Band in several musical numbers. Mrs. William Beasley urges all parents of Helix students to come and meet other parents and teachers. There will be a social hour following the meeting. The annual Founder's Day luncheon of Ninth District, California Congress of Parents and Teachers will be held Feb. 1, at twelve noon, at the Balboa Club, in San Diego. Reservations must be made by the twenty fifth of January. Anyone interested in attending should contact Mrs. Beasley.

Now You Can Fish and Get Paid for Same

A solution to the problem which many local businessmen face because their business interferes with fishing has been offered by the State Personnel Board.

There will be a civil service examination for a position as game conservation aid to be given in March.

These men will earn from $255 to $310 per month and they will work for the California Department of Fish and Game in various parts of the state, caring for game birds and mammals and developing and maintaining game refuges, public shooting grounds and game conservation areas.

There is also an opening for a junior aquatic biologist paying $310 to $376.

Application forms and information may be obtained from the State Employment Office, Columbia St. in San Diego.

THE DIMMER VIEW

By MAX GOODWIN

That load of publicity pap you've been reading about the tremendous job done by the Pacific Telephone and Telegraph Co. for which most of us pay a monthly bounty, looks good in print but it doesn't cover the whole story.

For the benefit of having an extra digit to remember on everyone's telephone, and after months of dialing numbers listed in the phone book only to find out later that the phone numbers have been changed, the telephone company is now asking the California Public Utilities Commission for increases in phone rates which will extract as much as $1.80 per month for residential service, plus added excise taxes.

The California Public Utilities Commission is charged by the State Constitution and State Law with protecting public interest but it is a good bet that the telephone Goliath with its sister organizations spread across the face of the United States will overwhelm the Commission and the rate increase will be granted.

One of the sorriest aspects of recent telephone company history is the completely relaxed attitude they took toward installing residential telephones when many persons, including some whom I knew to have illness or crises arriving in their families, could not and did not get phones for as long as a year. During that same period business telephones were available on one to six weeks notice.

The reason: Elemental! Business phone bills run 6 to 8 times that of residential phones.

Truck Driver Eats Hearty-- -Saves at Davis

"The first day we came to this area we found out about Davis Food Center," said Mrs. Robert Arnold, 6364 Wonderland Ave.

"Bob drives a truck, and he has a healthy appetite. We have three healthy, husky kids and that requires a lot of food too. That's the reason we were so happy to get acquainted with Davis."

"Davis has the best produce we have found in any market and the prices are more reasonable than in any other market we've ever shopped in. There is actually nothing in the store I don't like," she stated.

The Arnolds have three children, Karon, aged 6, Wesley, 4, and Robert, 14 months.

Frequently the kids come to Davis with their mother and they enjoy the shopping, too. Said Robert, "As a truck driver, ease of parking means a lot after fighting traffic five days a week. That's why Florence can get me to come shopping with her at Davis Market without any argument."

Davis Food Center boasts more individual grocery items than any other market within a two mile radius. Parking facilities, situated on three sides of the giant food center make for ease and convenience for drivers, especially women drivers, entrances and exits are on three different streets.

The market is located at Olive on Broadway and is open seven days a week. ADV.

Puzzles for 'Jail-Ladies' is Club Project

Mrs. Randolph Morse has been named chairman of the Welfare Program of the Lemon Grove Woman's Club ond she has established a slogan on which to tie the program, she said.

"Help where help is needed" is the slogan and as a result a visit was made to the city jail in the company of the Board Institutional chairman to the women's division of the City Jail.

Reading matter is not permitted to be donated, Mrs. Morse said. Jig-saw puzzles are direly needed to help kill the time of these women, most of whom are spending 30 to 90 days in the institute.

Puzzles should be left at the Grove Library. Regardless of age they are usable. Mrs. Morse will gather them up and see that they reach the women in jail.

Ambrosia—Delectable Quick Dessert

Looking for a refreshing dessert to complete a "cool-off" dinner on the patio or back porch? Then try the casual California way of serving ambrosia for dessert. A large bowl of ice cold orange slices with mounds of coconut sprinkled here and there, makes one of the quickest and most satisfying desserts you've ever dreamed of.

Before dinner, peel and slice the oranges into cartwheel shapes, allowing one large orange for each person. California valencia oranges are ideal for this dish because they're practically seedless and have a wonderful, fresh juicy flavor. Arrange the slices on a large low bowl or plate, sprinkling coconut between each row of citrus. Put the bowl in the refrigerator to chill while you're eating dinner. Then bring it out at dessert time for the grand finale of an outdoor meal. Each person can help himself, or if you prefer, you can serve at the table.

As a variation of this ambrosia, try it with slices of bananas or strawberries between each orange slice. Or to make it seem even more refreshing, tuck in several sprigs of fresh mint

Contest-Time . . . The answer to last week's quiz was Warner Brothers, no, H9-3666 and Robert Taylor & Stewart Granger. Congratulations goes to another Helix junior by the name of Sally Thibeault. Sally is a 15 year old Lemon Grove gal that resides at 7240 San Miguel Street. Sally is a foreigner—she was born in San Diego, and came to the Grove when in the third grade and worked her way up to Helix. She is a pretty brown-haired blue-eyed gal that stands 5 ft. 4 inches and weighs a slim 112. Her favorite food is spaghetti and fried chicken. Miss Thiebeault is what you might call 'engaged to be engaged' to another Helix junior, Bill Freeman by name. Not only did Sally Thibeault win a small write-up but she also won two tickets to the Grove Theater.

The questions for this week are thusly—you must answer 3-out-of-4 correct. (1) Who is a popular Canadian born pianist? (2) Who is Miss Pepper Pot? (3) Who is the fat man? (4) What is the name of the female singer with the middle nickname of "Bangs"? (Let's have a boy winner again.) A chicken dinner for two at Richie's go to the winner.

Thanks . . . to the following people who tried so hard to win the contest. Here are just a few names—Jim Covert, Jerry Lindsley, Eleanor Karcz, Elisa Williams, Don Stanley, Lenie Weber and others—keep trying.

Furniture Fashions

Perhaps you have thought that furniture has reached the utmost in functionalism and practicality. Here is another feature in the world of furniture fashions which is sure to please all homemakers—a cedar-lined drawer in a storage unit.

One entire drawer of this bedroom piece is constructed in cedar with a special lid to insure tight sealing and complete protection. This is a practical place to store wearable woolens. With this unique cedar compartment you can have finger-tip protection for sweaters, blankets, etc.

Chest of drawers shown is part of an entire bedroom grouping constructed in mahogany with contrasting hardware of brass or silver color. Wood is available in three finishes.

County Industrial Site to Open This Month

A 2,500 acre site on U. S. 395, eight miles northeast of San Diego, will be open January 26th as one of the few "planned" industrial areas in the county.

The new site is completely planned for industry with transportation, including rail, truck and air facilities. Its proximity to Montgomery Air Field will give it an all-weather airport.

Industrial plants located there will utilize modern and attractive designs for their factories in combination with beautiful landscaping. Adequate parking facilities will be furnished also.

A smaller counterpart is located in Lemon Grove in the light industrial area bounded by Imperial Avenue, Broadway, Grove St. and the Catholic Church.

Civil Defense Notes

By Charles Gurley

Some say it can't happen here. Others say it can. We're taking no part in such debates. All we're doing is getting ready in case it does. This is one conclusion reached by Dr. Frank B. Gigliotti, Zone Warden for Lemon Grove-Monterey Heights, after last Friday's Civil Defense meeting.

"We were greatly assisted by Lester Wadsworth, San Diego County Civil Service Coordinator" said Dr. Gigliotti, "Who related a number of interesting incidents which related to the work in which this group is interested.

"He told us of Mr. Lenin's plan for the conquest of the U.S.A. had a 1955 date schedule and a number of other even more interesting things, such as, it will take 206 men to service the medical supplies we have been furnished by CD Headquarters.

"While the attendance was rather small, we feel there is little doubt that all will return in the future as it was a most interesting meeting. Attending were Mrs. C. W. Brown, Mrs. Paul Harvey, Mrs. Jas. J. Martin, Mrs. Hayhurst, Miss Clara Sonka, Mrs. Edna Snyder, Mrs. Jaeger, Mrs. Goldie Moore, Mrs. F. B. Gigliotti, Roy E. Nielsen, Cap't Clarence Heidick, A. J. 'Bob' Bloom, Ken Arbo, Harvey Nash, Leo Heaton, Dr. Gigliotti and Charles Gurley."

Are You Guilty Of Doing Things Like These..

- SPEND THREE HOURS BARGAIN HUNTING TO SAVE 25c?
- WASTE A DAYS TRAVEL IN TIME AND EXPENSE IN ORDER TO CATCH SOME OUT OF TOWN BARGAIN WHICH MAY OR MAY NOT BE A 'BARGAIN' AT ALL?
- DRIVE 9 MILES TO BUY EGGS FOR A FEW CENTS LESS THAN YOU CAN GET THEM AT YOUR LOCAL STORES?

Most of us are guilty on one or more counts and we thereby exhibit an excellent example of false economy. In most cases we spend twice as much in actual cash, time and shoe leather as the few pennies we are supposedly 'saving.'

Auto Parts Firm To Open Grove Outlet

The second in a chain of auto parts outlets is coming to Lemon Grove.

The Mid-Way Auto Parts has taken possession of a store building at 3504 Main st. and will handle nationally known auto parts. The owners, Ernie Williams and Bob Sligh, presently own and operate a firm at 3038 Midway dr. in San Diego.

The organization will cater to retail and wholesale buyers and will stock a $25,00 to $26,000 inventory. As jobbers outlet for Collier motor parts at Union and B, the firm will have access to one of the largest supply organizations on the west coast.

"Colliers," pointed out Sligh, "connects north and east by teletype with many manufacturing centers. If the hard to get parts are not available locally, we teletype out to the manufacturers and get rush service. This service costs nothing extra to the retailer or consumer. They are not even required to pay the freight on these special orders," Sligh said.

Williams said that the firm has obtained the franchise for NAPA which is the National Automotive Parts Association. This organization has built its reputation on its slogan "Assurance of Quality."

The firm will be open before its indicated Feb. 1 formal opening date. Coffee will be served every day from opening on, from 9 till 12.

"Most garage men and all the public seem to like the morning coffee we serve at the Midway dr. place so we are bringing it to Lemon Grove," Williams said.

Local Fire Report Blames Carelessness For 97 Fires

Careless smokers and children playing with matches accounted for 97 fires last year in Lemon Grove, according to Fire Chief H. L. Hensley in his annual report to State Fire Commissioners.

Cigarettes were blamed for 76 fires; children playing with matches accounted for 21. Eighteen fires started from careless burning of trash and electrical, gas and other causes for the remaining fires.

Property valuation of $645,942 was involved in these fires but losses were limited to $11,770. The loss ratio was 0.019 and is less than other communities in the Southland.

Chief Hensley commended Grove residents for co-operation in complying with recommendations made by the department in 163 inspections during 1953.

Y., or Chicago, Illinois, or at the main office of the Bank of America N. T. & S. A. in San Diego, Los Angeles or San Francisco, California, at the option of the holder. First coupon (annual) payable February 15, 1955. Coupon bonds in denomination of $1,000 registerable only as to both principal and interest.

In the opinion of counsel, interest payable by the District upon its bonds is exempt from all present Federal and State of California personal income taxes under existing statutes, regulations and court decisions.

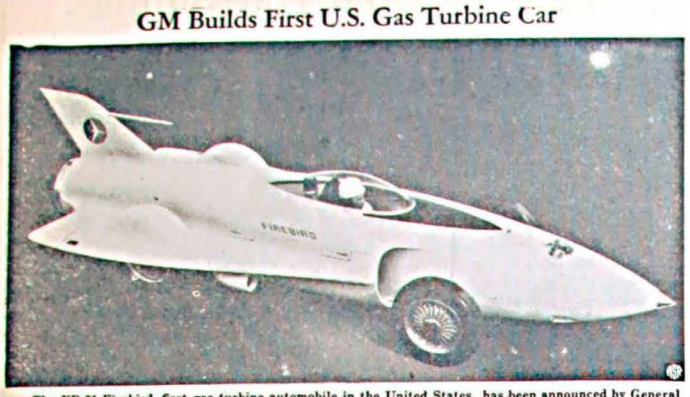
GM Builds First U.S. Gas Turbine Car



The XP-21 Firebird, first gas turbine automobile in the United States, has been announced by General Motors. In the cockpit, beneath a plastic bubble, is Test Driver Mauri Rose who put the car through shake-down paces at GM's proving grounds near Milford, Mich., and Phoenix, Ariz. The car's aerodynamic styling has an aircraft motif with a "needle" nose, swept-back delta wings and vertical tail fin.

Because the gas turbine uses large volumes of air, the Firebird has scoops on either side of the driver's cockpit and a large tail cone for exhaust gas. Its kerosene burning engine, mounted at the rear of the driver's seat, consists of two mechanically independent parts, a gasifier section and a power turbine. The power turbine delivers power to the car's rear wheels via a two-speed transmission.

The Firebird is an experiment to determine whether gas turbines will be feasible for ground vehicles.

Power of Truth Told in Christian Science Lesson

God is the source and substance of truth because God is Truth, the Lesson-Sermon on the subject of "Truth" in all Churches of Christ, Scientist, this Sunday, declares.

"Ascribe ye greatness unto our God. He is the Rock, his work is perfect: for all his ways are judgment: a God of truth and without iniquity, just and right is he." This citation is the Golden Text from Deuteronomy (32:3,4).

Later he was with the American Can Company and then treasurer of Chester Savings Bank and Chester Trust Company. He also held the position of first treasurer of Solar Lodge No. 131 F&AM. Mr. Edwards had retired from an active business career in 1938 due to poor eyesight.

Tighten Wheel Nuts Twice

After changing a tire, you should re-tighten wheel nuts when the jack has been removed. Wheels appearing to be tight while off the ground may promptly readjust themselves when weight is applied and not be entirely in place. A double check may avoid damage to the wheel and lugs or even a serious accident.

YOU BE THE JUDGE

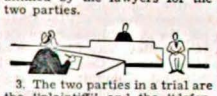
OPEN COURT

Most of us never go inside a courtroom, unless perhaps to pay a traffic fine. Yet things take place there that affect the way you live. That's why we believe that justice must be done in open court where all may see.

Why not visit a court soon, and see what goes on?

1. The Judge who conducts the trial will be glad to have you present. He sits on the "bench" behind a big desk. His job is to see that each party gets a fair hearing, to keep order, and to instruct the jury in the law.

2. The jury sits in the jury box below and to one side of the judge. The jurors swear to consider well all evidence. The witnesses who sit near the bench swear to tell the truth. They may be examined and cross-examined by the lawyers for the two parties.



3. The two parties in a trial are the "plaintiff" and the "defendant." In a civil action, the plaintiff complains that the defendant has infringed some of his rights. He seeks "relief." He usually wants the court to make the defendant pay damages for the harm he has suffered, or believes he has suffered.

4. Besides the clerk, the marshal or bailiff, and the shorthand reporter, you will find in your court room two vital things —a press table and seats for the public.

The reporters sit at the press table. Have you ever counted the number of legal hearings reported in your newspaper each day?

The newspapers and the public are represented in the court room for the same reason. Justice is public business, for what takes place in the court may affect everybody in the land. The pages of law and justice tell the long fight to open the doors of our courts. They are open **now!**

NOTE: The State Bar of California offers this column for your information so that you may know more about how to act under our laws.

Scored Brake Drums

Worn brake lining or lining that has abrasive matter lodged between the brake drum and lining is the usual cause af scored brake drums. The best preventive is to have drums and linisg cleaned and inspected at regular intervals. Lining that is worn down to the rivets should be replaced immediately in order to prevent irreparable damage to drums.

Lemon Grove Review January 21 & 28 1954.

Auto Brakes Require Attention

Only one brake system failure on your car is needed to produce a fatal accident. When the brake pedal must be pumped to build up pressure to stop, there are several possible causes. The fluid may be low in the reservoir, either as a result of a leak or evaporation, or brake shoes may need adjusting to compensate for lining wear. Brakes should always be maintained at peak condition.

Fuel Pump

The fuel pump on your car loses efficiency due to wear and ordinary deterioration. It may seem to be working perfectly under ordinary driving conditions but fail completely when operating at high speed or on mountain roads. This is why a fuel pump that appears to be losing efficiency should be replaced before starting on a long trip.

SCIENCE and your Health

TRICHINOSIS

by Science Features

Modern kitchen and sanitary conditions have reached a new high in efficiency but that hasn't stopped the spread of the ancient disease of trichinosis—acquired by eating raw or poorly cooked pork.

The United States, the best fed country in the world, has highest rate of trichinosis according to the Public Health Service. Their survey showed that one in every six is affected in varying degrees.

The disease is carried by microscopic worms, called larvae, that are imbedded in the muscles of pigs. When the infected meat is eaten, the larvae are reproduced in the body and carried in the bloodstream to the muscles.

Eye infections characterized by puffing and secretion, fever, aching muscles and other symptoms occur a week after eating the infected pork. No definite cure is known for the disease, but cortisone and the new hydrocortisone drugs have been successful in remedying the painful effects.

Super-cortisone such as Cortril have cleared the eye infections faster than any other drug, according to Dr. E. H. Steffensen of the Henry Ford Hospital. The new drug is also available in liquid form for injection into sore areas.

Bob Sutton, one of the town's educators, does not believe everyone is two-faced. He claims that if that were the case some would go around wearing the other one.

Corinne Calvet explained why she and her husband, **John Bromfield,** were separating: "John and I have been married for five years. . . . We have even grown to look alike."—FORTNIGHT.

Trinity Presbyterian Church Group to Eat Spaghetti

The annual congregational meeting of Trinity Presbyterian Church will take place next Sunday evening following a spaghetti dinner prepared by Dr. Frank Gigliotti. Election of officers and the setting of the budget for the year will be the main items on the agenda.

The following Sunday, the church will observe its second anniversary with ceremonies befitting the occasion.

The Boy Scouts of Troop 171, sponsored by the church will leave the church at 7:30 a.m. Saturday for a camping trip to De Anza State Park in Borrego Valley.

Superintendent of Schools will speak on coming school bond election to add needed classrooms to existing elementary schools. The club choral group has planned special patriotic music for the program.

Hostesses for the evening are Mmes. George Hillix, A. M. Barstow and Edward Miller.

Two new chairmen have been appointed — Red Cross will be handled by Mrs. Warren Bellows and Civil Defense by Mrs. Ray Moore.

The Junior Membership has been invited to attend the Reciprocity Tea being given by Lemon Grove Woman's Club, Friday, Jan. 22 at 1:30 p.m.

As sponsors of Girl Scout Troop 280, the Juniors were represented by their president, Mrs. James A. Martin, Jr. at the Annual Meeting of Girl Scouts last Friday in Balboa Park.

More Tax Forms Due By Employers

Lemon Grove employers who are now preparing Forms W-2 for the U.S. Bureau of Internal Revenue should also be preparing Forms 599 the California Franchise Tax Board advised today.

Employers must report to the State for each employee who during 1953 was paid $2,000 or more if single, and $3,500 or more if married. Payments must be reported for services rendered in California even though the employee resided in some other state. Also, if the employee is a resident of California, a Form 599 must be filed even though the services were performed outside of California.

Copies of Federal Form W-2 may be used in lieu of State Form 599 provided it is clearly indicated whether the employee is single or married and they must be accompanied by Form 596 and filed with the Franchise Tax Board on or before Feb. 15.

Citizen's Creed Tells More of School Attitude

This fourth in a series of The Citizen's Creed, prepared by Phi Delta Kappa, deals with the citizen's attitude toward the schools in his community. Other series have discussed the general views of the citizen, his attitude toward the Board of Trustees, and his relationships with district school officers.

Part IV . . . The School in My Community. As a citizen, interested in schools, I will

1. Recognize that a good educational program requires (a) adequate financial support, and (b) my personal understanding and constructive participation.

2. Cooperate in making the school a community center.

3. Believe the schools serve all classes, races, and creeds.

4. Look upon the school as an indispensable agency in achieving democracy locally, nationally and internationally.

5. Help the school to cooperate with all other constructive agencies in improving the welfare of the community.

6. Assist the school in keeping the community informed about its educational activities and needs.

7. Recognize the contributions of the school to the community in activities supplementary to the regular school program.

Meal-In-One-Plate

Here's a combination that's sure to increase the popularity rating of any hostess. These melt-in-your-mouth finger sandwiches are designed for the bridge luncheon or evening refreshments.

Half moons of Boston Brown bread, spread with delicate-flavored cream cheese; deviled ham finger sandwiches garnished with parsley tips; home made date nut bread spread with butter and cut in squares; triangles of white bread with tuna or crab meat filling; and open face rounds of salt rye spread with nippy cheese and garnished with stuffed olives. This gives variety aplenty in shape, color and flavor.

If you envy the hostess who has an extra pair of hands to make such attractive tidbits possible and still stay in the living room to greet and visit with her guests—fret no more—there is a way to have maid service niceties *without* the maid! Thanks to a new transparent, protective food wrapping material made of saran, you can prepare completely the sandwich plate or a delicate salad hours ahead of time and leave them in the refrigerator until the very minute you are ready to seat your guests and pour the coffee. Another feature of the new plastic wrap is its ability to cling to the plate so that no tape or string is necessary.

The tuna filling sandwich is the only one requiring a recipe:

Tuna or Crab Meat Sandwich Filling
(Makes 12 to 16 Sandwich Triangles)

Mix together with fork, in order given:

- 6 oz. (about 1 cup) tuna fish, minced
- 2 teaspoons lemon juice
- ¼ cup finely chopped celery
- 1 teaspoon finely minced mild onion
- 1 teaspoon finely diced green pepper
- 1 teaspoon finely diced pimiento
- ½ cup boiled salad dressing or mayonnaise (enough to make good spreading consistency)

Use thinly sliced white bread. Spread with butter or mayonnaise and trim crusts. Spread evenly with filling. Cover with second slice of buttered bread. Cut into triangles or fingers.

It's an idea—use bits of leftover Thanksgiving turkey in this recipe in place of tuna fish, and omit the lemon. Or you can pinch pennies by using peanut butter instead of crab meat with equally satisfactory results.
